EDUCATION

Dalian University of Technology Bachelor

2010.9-2014.6

Computer science and technology

Dalian University of Technology Master

2014.9-2017.6

Computer science and technology: research in wireless network

RESEARCH ACHIEVEMENTS

Research problem: Optimal link scheduling in WSN

2014.9-2015.5

Achievements: Zhaoshu Tang, Ming Zhu, Lei Wang, et.al. A Novel Link Scheduling Algorithm for Wireless Networks using Directional Antenna, WCNC 2016 IEEE.

Research problem: Optimal user selection mechanism for MU-MIMO which is proposed in 802.11ac standard

2015.9-2016.4

Achievements: Zhaoshu Tang, Zhenquan Qin, Ming Zhu, et.al. TOUSE: A Fair User Selection Mechanism Based on Dynamic Time Warping for MU-MIMO Networks. (Submitted)

Other:

Ming Zhu, Zhaoshu Tang, Wenlong Yue, et.al. Gatewaying the Wireless Sensor Networks, EAI Endorsed Transactions on Industrial Networks and Intelligent Systems 2016.

Zhicheng Zeng, Ming Zhu, Zhaoshu Tang, et.al. A single Access Point Based Traffic Control System with Passive Measurement, FCST 2015.
