

**Zhaoshu Tang** was born in 1993. He received his Bachelor degree in software engineering in 2014 from Dalian University of Technology, China, where he is going for Master degree. His research interests include wireless sensor network and wireless networks communications.

**Liang Sun** is an Engineer in School of Software at Dalian University of Technology. He is studying his PhD degree from the Dalian University of Technology of China (DLUT). His research interests are in the area of wireless networking and mobile computing. He is particularly interested in algorithm innovation and implementation for IEEE 802.11 wireless local area networks and cognitive radio networks, system modeling and performance analysis of wireless sensor networks.

**Ming Zhu** received the bachelor and master degree in communication and information system school of software both from Dalian University of Technology, China, where he is going for a Ph.D. degree. His research interests include wireless sensor networks and wireless networks communications.

social network and network security.

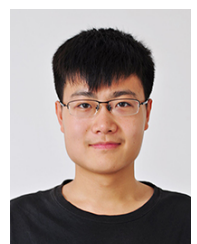

**Wang Lei** is currently a full professor of the School of Software, Dalian University of Technology, China. He received his B.S., M.S. and Ph.D. from Tianjin University, China, in 1995, 1998, and 2001, respectively. He was a Member of Technical Staff with Bell Labs Research China (2001-2004), a senior researcher with Samsung, South Korea (2004-2006), a research scientist with Seoul National University (2006-2007), and a research associate with Washington State University, Vancouver, WA, USA (2007-2008). His research interests involve sensor network,

**Naigao Jin** received M.S. and Ph.D. degree from Dalian University of Technology, China, in 2002 and 2008, respectively. Now he is a lecture with the School of software, Dalian University of Technology China. His research interests include sensor data fusion, localization and tracking in sensor network.

**Zhenquan Qin** received the B.S. degree in security engineering and the Ph.D. degree from University of Science and Technology of China in 2002 and 2007, respectively. Now he is an associate professor in the School of Software of Dalian University of Technology. His research interests include wireless sensor network and network analysis.

**Jian Fang** received the B.S degree in School of Software from Dalian University of Technology, Dalian, China, in 2015. He is currently working toward the Masters degree in Dalian University of Technology. He is interested in wireless sensor network and wireless network communications.
